

## ELECTRONIC HAND STAMP

**2050 0000 product line**  
**Electronic hand stamp jetStamp 790 for level and uneven surfaces.**

Röltgen jetStamp – the mobile, electronic hand stamp – uniquely combines the advantages of hand and electric stamps.

Freely moving, the jetStamp overcomes the limitations of the electric stamp while simultaneously offering its advantageous flexibility.

The jetStamp is future-proof and will continue to meet the requirements of changing work organisations.

Select your stamp impression from our range of saved stamp images. Number, date, time and text can be easily set in one and two line impressions.

Uneven stamping surfaces are not a problem where the jetStamp is concerned. At the same time, the stamped material is always treated gently.

Whether in a laboratory, a hotel reception, goods-in, production and quality control, in design and architecture offices, in mail rooms or in public administration, the jetStamp is always the quick and quiet stamp.

## ELECTRONIC HAND STAMP

### 2050 7000 product line

The jetStamp graphic 970 is a portable inkjet printer for quick and easy labelling of documents or products. It can not only print numbers, dates and times, and text, it can also print graphics and barcodes.

With the MP ink it is possible to print on smooth surfaces such as metal and plastic. Portable, handy and easily programmable.

### Capabilities

- Numbers, date, time, text plus graphics and barcodes
- Up to 4 print images can be stored in the device
- A print image can be created quickly and easily on a PC and then transferred by USB, optionally also by Bluetooth
- Battery operation means it is portable and can be easily moved to any materials that require printing so that documents/products can be quickly and individually labelled
- Using MP ink it is possible to print on metal and plastic.  
The ink dries quickly and is then smudge-proof.

### Technical data:

- Dimensions: 140 x 160 x 85 mm (W x H x D)
- Base station dimensions: 155 x 140 x 30 mm (W x H x D)
- Weight: approx. 520 g
- Max. print area: 65 x 12.7 mm (W x H)
- Max. print speed: < 1 s/impression
- Print resolution: 300 dpi
- Battery capacity: up to 1,000 impressions
- Print technology: Inkjet

Production Date: 2018-01-29 09:23  
Best Before: Dec 2018  
Charge No.: 12345678
