

FORMAT PARTS FOR PACKAGING MACHINES

2300 product line Format parts

We manufacture nearly all format parts for packaging and blister machines made by any manufacturer. The parts are made from stainless steel, aluminium or POM according to your samples or drawings.

Whether sealing rollers or their counter rollers, whether ampoule guides or tablet slides, we guarantee you maximum precision and excellent quality at a low price.

If desired, we can provide you with general and/or production drawings for your parts.
