

INK CARTRIDGES

2670 product line

With quick drying ink for non-porous surfaces (metal sheet or plate, glass, plastics, painted cartons, etc.).

Dependent on the magnitude of the pressure head, round or square cartridges are used.

Nylasint rolls

INK ROLLERS

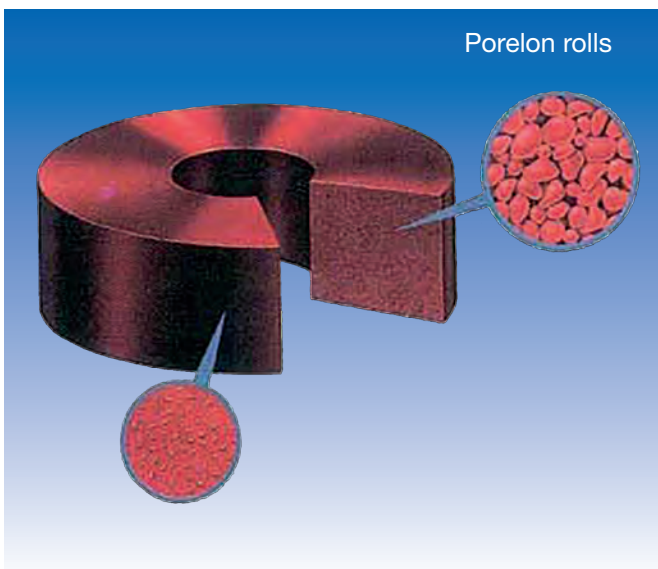

2800 product line

Ink rollers are available in two versions:

1. as a Nylasint roller or
2. as a Porelon roller or
3. as a foam roller.

Nylasint rollers are surrounded by material and thus quite soft on the surface.

The Porelon rollers are made out of a harder material. Various inks are available so that you can print on almost all absorbent substrates.

Porelon rolls
